## Information about outlets and outlet details

Valve half Inoxpa 63.5 (I-flange) will be discontinued. To ensure if it is an Inoxpa 63.5 valve half on a tank outlet, you can measure internal dimensions: 63 mm and external dimensions: approx. 112mm. (Article number: 802792)

If a tank with valve half 802792 is to be rebuilt from conventional milking to robotic milking, the customer must change the current flange on the tank to a Nocado 63.5 (article number: 802795), which has an internal dimension: 63mm and an external dimension: 127mm.

Do not forget that the tank must then also be equipped with a new outlet and adapter that has a valve half 802795.
